4. Processing Can Not Be Completed without the following information

a. Parents Birth Date

In order to process payments and membership information for children 18 years of age or younger, we must have parent/guardian consent.

The Sports Logic system will recognize a parent/guardian name and DOB as verification that they are 18 years of age or older and are consenting to share youth data.

The Federal Trade Commission (FTC) requires that we must make reasonable efforts (taking into account available technology) to provide direct notice of our practices to parents, with regard to the collection, use, or disclosure of personal information from persons under 13, including notice of any material change to such practices to which the parents has previously consented; we also must obtain verifiable parental consent, with limited exceptions, prior to any collection, use, and/or disclosure of personal information from persons under age 13. Our industry best-practice is to use these rules for all children under the age of 18.

b. Parents Email Address

For parents without email or refusing – you will need to create a dummy email address. We suggest something like first.last@bowl.com. Don't create the same one for everyone as searches are done by email address, so each child under that email will be visible.
